

# Foundations! Developing a food lifestyle from the ground up.

## TOPICS TO BE DISCUSSED:

- THE POWER OF LEAN PROTEINS, CARBOHYDRATES AND HEALTHY FATS TO CREATE LASTING RESULTS
- WHY JUST EATING HEALTHY IS NOT ENOUGH TO CHANGE YOUR BODY COMPOSITION OR CREATE WEIGHT LOSS
- ALL CALORIES COUNT BUT NOT ALL ARE CREATED EQUALLY
- THE SPECIFICS OF PUTTING FOOD TOGETHER TO ACHIEVE RESULTS
- WHY DIETING AND DEPRIVATION IS **NOT** THE ANSWER
- HOW TO READ LABELS AND FEEL EMPOWERED ABOUT MAKING THE RIGHT HEALTHY CHOICES FOR YOU
- WHY EXERCISE ALONE WON'T MAKE YOU LOOK BETTER, FEEL BETTER OR PERFORM BETTER
- THE ROLE FOOD PLAYS IN WEIGHT LOSS, BODY COMPOSITION CHANGE, MOODS AND ATHLETIC PERFORMANCE
- PUTTING TOGETHER HEALTHY, NUTRITIOUS AND TASTY MEAL PLANS

*"I absolutely love your class. You have really changed my life and the way I look at food...I will never be able to thank Lisa enough for being so passionate about what she does."*

--Margot

*"I'm halfway through this course, and it has already changed my life. And I'm not talking in pounds lost (although I am happy to see them go!) I am talking about whole life changes. I have a new understanding of food, calories, fats (yes, there are good ones!), and overall nutrition that has allowed me to feel more energetic than I have felt in years. I am happier, and my entire family is happier. My only regret is that I didn't have this knowledge a decade ago."*
